Some Important Features in a Report of the Consul to Sidney.

CALLERS UPON PRESIDENT HARRISON.

Another Allegheny County Man is Rewarded for Political Service.

The report of Consul Griffin, stationed at Bydney, contains some important features. The Government is urged to pay more attention to our interests in the Pacific islands. A wealthy woman, whose fether was an American, is very anxious that the United States should secure a foothold in this region. In one island the curious practice of eaging girls until they are married is practiced.

ESPECIAL TELEGRAM TO THE DISPATCH, I WASHINGTON, July 9 .- A report just received from United States Consul Griffin, of Sydney, New South Wales, urges upon the United States greater attention to the importance of the islands of Bismarck Archipelago, because our commercial interests there are larger than those of any other country. One passage of his report savors of the romantic.

Mrs. Emma E. Forsythe, a daughter of Mr. Jonas M. Coe, formerly Consul at Apia, Samoa, and his wife, who was the daughter of a Samoan chieftain, owns a plantation of 120,000 acres, employs 50 Europeans and several hundred natives, owns several steamers and is building others, and conducts a business larger than the combined business of all the civilized residents of the island of New Britain. Mrs. Forsythe is now 36 years of age. She received her education at Sydney and San Francisco.

Besides being highly accomplished she is a lady of very prepossessing appearance and of remarkable energy and intelligence. At the time of her marriage she was acknowledged to be the most graceful and beautiful woman in the island. She made such an impression upon Lord Pembroke that he

Coe, in San Francisco, Cal., and at a later period joined her father's family at Apia, Samoan Islands. She rendered assistance to her father in keeping the books of the

She is quoted as an authority on native languages and dialects, and during Consul Griffin's term of office as Consul at Samoa she, on various occasions, acted as his amanuensis and interpreter, and translated nearly all his correspondence with the Samoan Government. She has always taken great interest in the trade and commerce of the South Sea Islands, and is, perhaps, better posted on the subject than any other citizen of the United States mailing each citizen of the United States residing south

of the equator.

In 1879 she removed to the island of New natives several large tracts of land there, she formed a partnership with Mr. Thomas

on which are raised, among other products, vast quantities of cotton. Her property and that of the firm within the Imperial Ger-

the German protectorate, and as no nation has as yet set up a claim to it, she is quite auxious that her offer shall be accepted." In another part of his report Consul Griffin tells of a remarkable custom of the inhabitants of New Britain as follows: "The inhabitants, it is said by Wallace,

have a peculiar custom of CONFINING THEIR GIRLS

in cages until they are old enough to be married. This custom is said to be peculiar married. This custom is said to be peculiar to the people of New Britain. The cages are made of twigs of the palm tree, and the fals are put into them when only 2 or 3 years of age. The Rev. George Brown established a Wesleyan mission in New Britain in 1876, and I learn from him that these cages are built inside of the houses, and that the girls are never allowed to leave the house under any circumstances. The houses are closely fenced in with a sort of wicker work made of reeds. Ventilation under the circumstances is rendered very difficult. The cumstances is rendered very difficult. The girls are said to grow up strong and health-jul in spite of these disadvantages."

The Bismarck archipelago consists of two large islands, New Britain and New In-land, and a number of smaller ones, begin-ning at the constant and artending the ning at the equator and extending to the 8th degree of south latitude and about the 148th degree of west longitude.

TANNER'S TRIP.

the Burenu. ISPECIAL TELEGRAM TO THE DISPATCH. WASHINGTON, July 9 .- Commissioner Tanner returned from his Western trip today, and occupied his desk at the Pension Bureau. He would not say whether the changes in the medical division are to stop where they left off yesterday. "I was away," said the Commissioner, "and so cannot be responsible for the removals, but I want to call attention to the fact that 17 of the 22 doctors employed in the medical division were appointed by the last administration. I want to say another thing, that I haven't discharged any old soldiers on account of their Democratic

artisanship."
The medical division was all torn up today, in its mind, not knowing where the ax will tall next, and all because three doctors were dismissed yesterday. Two were Democrats, and one, a Republican, insists he was dismissed because he has been too liberal in rerating pensions.

As Allegheny Man Gets There. PEPECIAL TELEGRAM TO THE DISPATCH. WASHINGTON, July 0 .- T. W. Weddell,

formerly of Versailles township, Allegheny bounty, has been appointed confidential secretary of the fifth auditor of the Treas-Mr. Weddell came here in 1882 and ury. Mr. Weddell came here in held a position in the House of Representatives and since then has occupied various offices. He was a valuable attache of the National Committee during the last cam-

AT THE WHITE HOUSE.

The Heat Affects Both the President and His Visitors-How One Delegation Was Disappointed-A Few Plums Distributed.

INPECIAL TELEGRAN TO THE DISPATCH. WASHINGTON, July 9 .- Though it was a sweltering day the President had more callers than usual, but only a few of them were of national note. Most of them looked very hot, and but one, a Mr. Parkinson, of

Washington Territory, had the independence to try to be comfortable contrary to etiquette He is a fine looking man, and wore good lothes, but he took off his coat, unbuttoned his waistcoat, carried an umbrella and sauntered through the grounds and into the White House as though he owned them. He maintained this dishabille until he was shered into the library and then at leisure put on his coat.

He wanted to tell the President how offices should be distributed in the new State of Washington. The President finds it very lonely at the White House and the it very lonely at the White House and the bot weather makes him rather impatient of the visits of office seekers, and he does not always give just the sort of satisfaction that is wanted. For instance, a Philadelphia delegation was here yesterday, and called with Representative Harmar on the President in the interest of Mr. Alonzo Shotwell, of Philadelphia, for the office of Railroad Commissioner. The party came away from the White House professing that they were sure of their man, and were astonished and chagrined this afternoon to find that Horace A. Taylor, of Wisconsin, had captured this very desirable and honorable position.

had captured this very desirable and honorable position.

Indiana, which never gets anything, was presented with two nice offices to-day, Henry W. Diederich, a prominent German American Republican, getting the Consulship at Leipsic, and Thomas C. Mendenhall the superintendency of the Coast and Geodic Survey. The President expects to go to Deer Park Friday, and will probably not return until the middle of next week.

PROTECTING THE OYSTER.

Steamer Fitted Out to Destroy Its Great

ISPECIAL TELEGRAM TO THE DISPATCE. WASHINGTON, July 9.—All lovers of oysters will be delighted to learn the nature of the voyage on which the steamer Fish Hawk, of the Fish Commission service, started this afternoon. She sailed down the Potomac equipped for battle against the starfish, which is the great enemy of the oyster, and therefore the enemy of all mankind. Especially does the starfish make war on the oyster which lives in the saltiest of salt water. In the fresher water it does

impression upon Lord Pembroke that he sketched her portrait at length in the character of Coe in his work entitled "South Sea Bubbles."

A REMARKABLE WOMAN.

Although married to an Englishman, Mrs. Forsythe never renounced her nationality After the death of her husband, which occurred in the year 1872, she took up her residence with her uncie, Mr. E. H. Coe, in San Francisco, Cal., and at a later period joined her father's family at Apia,

A RABBI'S RASH ATTEMPT.

Weary of a Life of Poverty He Tries to Commit Suicide. CLEVELAND, July 9. - Rabbi David Franke, a despondent, of No. 252 Broadway. tried to jump over the Superior street via duct draw at 9 o'clock yesterday. He walked to the center of the drawbridge, and with a hoarse cry of "Here goes life," begun climbing over. After a desperate struggle a policeman succeeded in preventing him from taking his own life, and he Britain, and, having purchased from the was hurried to the station house. He says he is a Russian, and until Sunday night was rabbi and secretary of the Boruck oel Farrell, and in the same year she established one of the most extensive business enterprizes in the South Sea Islands under the name of Thomas Farrell & Co., planters and trading merchants.

A BIG FARM.

The headquarters of the firm were established at Raaluan, near one of their largest plantations, which now includes 14,500 gares of the choicest land in New Britain on which are raised, among other products.

was rabbi and secretary of the Boruck oel Chesed, a small congregation of his countrymen who have a synagogue in the upper rooms of his house. His salary was in arrears, and on the motion of a member he was instructed to write to headquarters in New York for aid. The President of the congregation, instead of receiving the desired help, received a sharp rebuke from New York by mail, which angered him greatly. He blam d the rabbi for having sent a clumsily worded epistle to headquarters and moved him greatly from the pastorate of the sum of the production of the motion of a member he was instructed to write to headquarters in New York for aid. The President of the congregation, instead of receiving the desired help, received a sharp rebuke from New York by mail, which angered him greatly. He blam d the rabbi for having sent a clumsily worded epistle to headquarters and moved help.

Rabbi Franke was not popular with influman protectorate is estimated at 120,000 acres, and that outside of the protectorate at 30,000 acres, making a total of 150,000 acres, mearly all of the landed estate being owned by Mrs. Forsythe.

Habbi Franke was not popular with influential members and the motion carried, throwing him out of employment with six weeks' salary and the rent of the synagogue owing him. He has five small children and a wife to support and says no member of his. by Mrs. Forsythe.

Consul Griffin says in conclusion: "Mrs. Forsythe rendered very effective aid to me in the preliminary steps which secured to the United States for a period of ten years the use of the harbor of Pago Pago as a coaling station, and not long since she made an offer to the American Government of 20 acres of ground on her own property in the Island of Malulu for another coaling station. The Island of Malulu is outside of the German protectorate, and as no nation owing him. He has five small children and a wife to support and says no member of his family has tasted food for 48 hours. Monday morning, discouraged and hopeless, sick with the cries of his hungry children, the rabbi attempted to end his life. Officer Thomas went up to his house and says he failed to find so much as a crust within it. He secured food for the family and reported the facts at the station. The Infirmary Department will care for them until the father secures work. He was allowed to go home on promising to make no further attempts to on promising to make no further attempts to

> A letter was found by his wife soon after he left home, in which he bade his family a sad farewell, saying that he could not endure to have his ohildren cry for bread when they awoke. He said he was better dead than alive and referred despondently to his trouble in the church.

AXWORTHY'S DEFALCATION.

The City of Cleveland to Come Out All Right After All.

CLEVELAND, July 9 .- If a fair price can be obtained for Axworthy's property neither the city of Cleveland nor the bondsmen will lose a cent by the defalcation. At the will lose a cent by the defalcation. At the most the entire defalcation will not amount to more than \$80,000, and Axworthy has said that he will make good whatever remains unbalanced after his property is disposed of. The city does not need the money. By waiting affairs can be amicably settled, the property can be disposed of at a fair valuation, and it will be better for the city, for the bondsmen and for Axworthy.

LATE NEWS IN BRIEF.

-The officers who arrived recently at San Francisco from Samoa, except Drs. White and Norfleet, have been ordered home. The Chicago authorities say that the Cooney inder arrest at Albert Lea, Minn., is not Coney the Fox, who is wanted for complicity in the Cronte murder.

—The President will leave Washington for a isit to Mrs. Harrison at Deer Park, Md., on Friday morning. He will remain there until the following Tuesday, and possibly a few days longer.

—A carload of canned fruits and wines, donated to the Johnstown sufferers by the citizens of Los Angeles, Cal., which arrived at Philadelphia last week, was disposed of at auction in small lots. The bidding was spirited and the sum of \$1,212 was realized. -The President has made the following appointments: Horace A. Taylor, of Wisconsin, to be Commissioner of Railroads; Thomas C. Mendenhall, of Indiana, to be Superintendent

—At Blackmar, Mich., yesterday, Charles Blackmar, while drunk, shot his mother, 75 years old. A grandson of the woman seized the gun and discharged its contents into Charles' breast. Mother and son are probably dying. A. T. Blackmar, husband of the woman, and founder of the place in which they live, formerly resided in Buffalo and was a wealthy malster.

malster.

—Last evening Henry Blake and Michael Frawley went to the Rocks, about a mile above Susquehama, Pa., to take a swim. Being somewhat under the influence of liquor, they began fooling with one another until suddenly they both lost their balance and fell a distance of 50 feet, striking on their heads in the river. Frawley's neck was broken and he died instantly. Blake received injuries from which he will probably die.

The American stermer Hawtien Republic

stantly. Hake received injuries from which he will probably die.

-The American steamer Haytien Republic hasarrived in port at San Francisco 76 days from New York. On the morning of May 26 fire was discovered in the lower coal bunkers, which was only extinguished after eight hours' hard work. The timber work was badly damaged and a large hole was burned through the ceiling. On May 27 the Haytien Republic anchored at Dungeness Spit, in the Straits of Magellan. She arrived at Sandy Point on the dist, and remained there until June 4 repairing her boilers and machinery.

-Leland Stanford and C. P. Huntington have decided to withdraw the Southern Pacific Railway from Texas. A late law in that State provides that no railroad company operating roads within its borders has any legal status unless it maintains its principal office therein. The Southern Pacific officials say that they could not do the latter, therefore the three Texas and Louisiana roads that now form a nart of the Southern Pacific main line to New Orleans will hereafter be operated as distinct roads with different sets of officers. Julius Kruthschmitt, as General Manager of these roads, will remove from New Orleans to Houston, Tex.

The cases of catarrh treated and cured by the physicians of the Catarrh and Dyspepsia Institute at 323 Penn avenue, are usually those of the most advanced stages, and who have spent years of time and much money treating elsewhere, until by some friend or in reading the papers they learn of the Catarrh and Dyspepsia Institute, and that others have been cured of diseases similar to their own. The physicians of this institute refer with pride to the many testimonials already published and hundreds of others on file at their office, received from patients whom they have cured of simple catarrh, ulcerative catarrh and some cases where the lungs were badly diseased. Dyspepsia including ulceration of the stomach and diseases of women. The words of comment and praise received concerning their treatment and cure of diseases peculiar to women are very encouraging. Mrs. Dr. Crossley is always present during office hours to consult with ladies. "You will not publish my picture or name in the paper, will you?" is often asked. The portraits of patients are never displayed in the papers, and no testimonial or name of any patient is published in the papers without the full consent or wish of the patient.

"When is the best time to cure catarrh?" is asked. In the summer, by all means, as in cold weather with sudden changes of temperature, the patient is much more liable to colds, thus retarding the progress of the treatment. Many children are badly afflicted with catarrh, frequently developing into consumption at a very early age. The crowds of men, women and children that daily assemble at the pariors of the Catarrh and Dyspepsial Institute is the bost evidence of the standing of these physicians and their success in making cures. Remember the place, 325 Penn avenue. Consultation free to all. Office hours, 19 A. M., to 4 P. M., and 6 to 8 P. M. Sundays 12 to 4 P. M.

WEAK WOMEN.

DISPATCH,

Why Are They Weak and Can They Be as Healthy and Vigorous as Ment-Valu-

PITTSBURG

able Suggestions on the Subject.

At the Madison Square Garden, New York, recently, five women, for six days in succession, rode over 100 miles each day upon bicycles, and at the end of that time were well and strong.

This proves concluded that the word have This proves conclusively that women have strength and endurance often equal to men. Why, then, are they called a weak race? Be-Why, then, are they called a weak race? Because they make little effort to secure strength or retain it after it has been secured. Women are pale, sallow, troubled with many weaknesses, and why? Because they do not observe the laws of health and keep their bodies as they should. Their blood becomes thin and beats slowly. It should be stimulated to strong and healthy action. Cosmetics will not do this, nostroms cannot, but pure whiskey, taken as a medicine, will. If the lady of society returning from a reception or shopping expedition will from a reception or shopping expedition will use a little pure whiskey, Nature will be assist-ed so that instead of breaking down it will be ed so that instead of breaking down it will be tided over until it can recuperate. If the weary woman who is beset by work and cares will do the same thing, she, too, will be helped. Anything that assists nature helps bring health. The importance of using only pure whiskey cannot be too strongly urged, but there is little good and pure whiskey to be had. The only safe one to take is Duffy's. It is a Pure Malt Whiskey, free from all impurities, and has been used by the most prominent men and women in America for years. It is recommended by the leading physicians, chemists, clergymen, and it merits the great popularity it has

RAILROADS

NEW ADVERTISEMENTS.

PANTS

SALE.

We have often given our patrons some truly marvelous bargains in Pants, but the wonderful values we shall give them during this sale are without precedent or parallel. Men of all classes and conditions in life-capitalists, bankers, brokers, merchants, professional men, clerks, mechanics, laborers, policemen, conductors, railroad men, river men-all, all, all are interested in this great and glorious Pant Sale. But we will let our figures talk for us. Read them carefully.

The Pants we offer at this price actually cost more to make. They are none of your "cheap, shoddy" goods, but fairly good qualities, well made and sewed. The patterns are light, medium and dark, and the sizes range from the smallest to the largest.

This price will take choice from several piles of Men's Cassimere, Cheviot and Worsted Pants, in stripes, checks, plaids and mixtures. They're just the thing for "after work" and are equal to any that would cost you \$2 25 elsewhere.

This price entitles you to your choice from over 1,000 pairs of neat Business and Dress Pants, made of stylish Cassimeres, Corkscrews and Cheviots, light and dark patterns, and every pair worth not less than \$3. We have all sizes, too, and can fit any man, tall or short, fat or slim.

Think of it! Genuine tailor-made Pantaloons for \$3. This peerless offer will be good all this week, and you can take your choice from about 1,500 pairs, each one guaranteed to be strictly all wool. Indeed, some of the materials are of our own importation, and are quite equal to anything shown by first-class merchant tailors.

Stylish dressers, listen. We have here a line of extra fine custom made Dress Pants, made of the most exquisite imported materials, and in the very newest and hand-somest patterns, from which we offer choice at \$4. The intrinsic value of these Pants is \$6 and \$6 50.

OUR MIDSUMMER CLEARANCE SALE

now on in every department of our house. Clothing, Shoes Hats and Furnishing Goods, Ladies' and Misses' Jackets, Jerseys and Blouses, Trunks, Satchels, Hammocks, etc., are now being offered at matchlessly low prices.
